It is proposed to have some of the most distinguished statesmen and others to give utterance to the general feeling of gratification experienced at the prospect of a permanent peace between the two great Anglo-Saxon nations of the earth.

SAND FROM THE OLD WORLD .- The North German ship Terpsichore has landed some 500 tons of sand ballast, previous to her departure for the guano islands. This sand comes from the banks of the river Elbe, about thirty miles above the city of Hamburg, and is excellent material for building purposes, for which it has been secured by the government. Thus the sands of old Europe are by the vicissitudes of commerce made tributary to building up of Young Hawaii.

HISTORIC NAMES.-Christian Lopez and Louis Gonsalez were before the Police Court on Wednesday last, the former for assaulting the latter. Both are Portuguese, employed on a milk-ranch in the neighborhood of the city, and both are of unmistakable African descent. Lopez has a bad record, having been twice mulcted in the Police Court for furious and reckless driving of his milk-wagon. Gonsalez, the darkest complexioned of the two, had a native woman for a wife, and he was jealous of the attentions of Lopez to the fair Desdemona. His jealousy Othello, instead of going for Desdemona, and putting out her "light," he complained to "the boss," ment is by no means new, but has been extensively which caused Iago to get into trouble. The latter promised the jealous Moor that the first time he got application of carbolic acid is found extremely use- a chance, he would "put a head on him." This occurred one night when the iron tongue had told the hour of one, just as Othello was beginning his morning task of milking the cows, when Iago attacked him and literally "mashed his jaw." Othello halloed "haul-in," in jaw-broken accents, and Iago was taken to the station-house.
